Sofia

Curators

kyd@i-space.org

Statement

KYD CAMPBELL develops projects aimed at promoting dialogue and self expression through the creation of new forums for discourse and new interactive situations. She was in Montreal at the VAVGallery and Concordia University. Recently she has been in Sofia, Bulgaria working as creative project mechanic on a number of art projects at InterSpace Media Art Center. Kyd is the founder and host of The Upgrade! Sofia and has created numerous spontaneous presentation events, the latest being 'Tiny Noise Festival' which is a sound and noise event that has, so far, toured in Sofia and Skopje. KYD is always open to new collaborations. She likes farm animals, ketchup, cowboys, freedom of speech and mobility, bicycles and wonton soup. She really doesn't like mean people, bureaucracy and canned corn. For more: www.halftwo.com www.i-space.org
